GRADE 6 HOMESCIENCE SCHEME OF WORK TERM 1

SCHOOL	GRADE	LEARNING AREA	TERM	YEAR
	GRADE 6	HOME SCIENCE	1	

Week	Lesson	Strand /Theme	Sub-strand	Specific-Learning outcomes	Key Inquiry Question(S)	Learning/ Teaching Experience	Learning Resources	Assessment Methods	Refle
1	1	Healthy living	Meaning of adolescents	By the end of the sub-strand, the learner should be able to: • Define adolescents • Explain at what age does adolescents begin and end • Watch a video clip of adolescents interacting with their family members • Appreciate the changes that kids under go when they get to adolescent age.	Who is an adolesce nt?	In pairs, learners are guided to identify adolescents in the environment.	Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 1-2	Oral questions Oral Report Observation	
	2			By the end of the sub-strand, the learner should be able to: • Identify changes that take place during adolescence • Represent changes that occur in boys and girls during adolescence in a table • Appreciate the role of nature to own self and bodies.	What changes to adolescents?	Learners are guided to identify changes that occur to adolescents at this stage.	Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 2-4	Oral questions Oral Report Observation	

	3	Good grooming	By the end of the sub-strand, the learner should be able to: • Define grooming • Identify some of the daily routine grooming practices for an adolescent • Discuss importance of grooming for an adolescent • Appreciate practicing good grooming for healthy habit	What are some of the grooming routines you do on a daily basis?	In groups, learners are guided to identify some of the routine grooming practices In groups, learners are guided to demonstrate how perform good grooming	Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 4-5	Oral questions Oral Report Observation	
2	1	Healthy eating habits for adolescents	By the end of the sub-strand, the learner should be able to: • Discuss importance of adopting a healthy eating habit for adolescents • Portion a healthy diet for an adolescent • Appreciate healthy eating habit	What is a balanced diet?	In pairs, learners are guided to discuss importance of healthy eating In groups, learners are guided to prepare a balanced diet meal	Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 5-7	Oral questions Oral Report Observation	
	2	Daily physical exercise as a healthy habit	By the end of the sub-strand, the learner should be able to: • Identify physical exercise that are suitable for adolescents. • Discuss importance of physical exercise to our bodies	What is physical exercise?	Learners are guided to identify different games played in his/her locality In groups, learners are	Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science	Oral questions Oral Report Observation	

	3	Safety in the environment	 Perform simple exercises Have fun exercising as a healthy habit. By the end of the sub-strand, the learner should be able to: Identify dangers that might happen to adolescents in the environment Discuss precautions that can be taken to avoid the dangers Educate peers on dangers that adolescents face in the locality Practice safety precautions to avoid danger. 	What are some of the safety measures in the environment?	guided to role play a game of his/her choosing. In groups, learners are guided to dangers that might happen to adolescents in the environment In groups, learners are guided to demonstrate how Practice safety precautions to avoid danger.	Learner's Book Grade 6 pg. 7-8 Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 8-10	Oral questions Oral Report Observation	
3	1	Accessories and cosmetics	By the end of the sub-strand, the learner should be able to: • Define accessory and cosmetic • Name some common accessories used by adolescents • Draw and color accessories • Have fun accessorizing own self	What is an accessory?	In pairs, learners are guided to define cosmetics In groups, learners are guided to use accessories correctly	Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 11-12	Oral questions Oral Report Observation	
	2	Misuse of accessories by	By the end of the sub-strand, the learner should be able to: • Discuss ways in which	Why is it important to accessorize	Learners are guided to identify ways in	Digital resources Charts Realia	Oral questions Oral Report	

	3	Misuse and dangers of cosmetics	adolescents misuse accessories • Watch video showing proper ways of using accessories • Appreciate proper accessorizing of accessories By the end of the sub-strand, the learner should be able to: • Identify factors to consider when using cosmetics • discuss ways in which adolescents can misuse cosmetics • create a photo album of decently dressed, accessorized and properly used cosmetics. • appreciate decent dressing for adolescents	How should one use cosmetics?	which accessories can be misused In groups, learners are guided to properly accessorize themselves In groups, learners are guided to identify factors to consider when using cosmetics In groups, learners are guided to identify factors to consider when using cosmetics	Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 13-14 Digital resources Charts Realia Play items Computing devices KLB Visionary Home Science Learner's Book Grade 6 pg. 14-15	Oral questions Oral Report Observation	
4	1	Non - communicabl e diseases and	By the end of the sub-strand, the learner should be able to: • Explain the meaning of non-communicable	What are non-communicab le	In pairs, learners are guided Identify non- communicable	KLB Visionary Home Science Learner's Book Grade 6 pg. 16-17	Oral questions Oral Report Observation	
		disorders	disease and disorder Identify non- communicable diseases and disorders	diseases/dis order?	diseases and disorders In groups,	Digital resources Charts Realia		

		 Use the internet to get information about non-communicable diseases Share experience on non-communicable diseases and disorders 		learners are guided to Share experience on non-communicable diseases and disorders	Play items Computing devices		
2	Causes, prevention and management of common non- communicabl e diseases- diabetes, obesity and hypertension	By the end of the sub-strand, the learner should be able to: • Identify causes of diabetes, obesity and hypertension • Share stories on diabetic patients if they have interacted with • Discuss how diabetes, obesity and hypertension can be prevented and managed • Appreciate prevention of obesity, diabetes and hypertension	How can we prevent getting obese?	Learners are guided to identify causes of diabetes, obesity and hypertension In groups, learners are guided to Discuss how diabetes, obesity and hypertension can be prevented and managed	KLB Visionary Home Science Learner's Book Grade 6 pg. 17-20 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
3	Epilepsy and asthma	By the end of the sub-strand, the learner should be able to: • Identify causes, signs and symptoms of epilepsy and asthma • Discuss first aid procedure of epileptic and asthmatic patient • Role play performing first aid for epileptic	What is epilepsy	In groups, learners are guided to identify causes, signs and symptoms of epilepsy In groups, learners are	KLB Visionary Home Science Learner's Book Grade 6 pg. 20-23 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	

5	1		Heart diseases	 and asthmatic patient Appreciate prevention and management of epilepsy and asthma By the end of the sub-strand, the learner should be able to: Name heart diseases Discuss causes, signs and symptoms of heart 	How do we prevent heart diseases?	guided to Role play performing first aid for an epileptic patient In pairs, learners are guided to Discuss causes, signs and symptoms of	KLB Visionary Home Science Learner's Book Grade 6 pg. 24	Oral questions Oral Report Observation	
				 diseases Watch a video of patients with heart diseases Appreciate proper management and prevention of heart diseases 		heart diseases In groups, learners are guided to Watch a video of patients with heart diseases	Digital resources Charts Realia Play items Computing devices		
	2		Cancer	By the end of the sub-strand, the learner should be able to: • Explain the meaning of cancer • Watch a video showing care of cancer patients • Create awareness of common preventable cancer • Discuss causes and prevention of cancer • Appreciate healthy living as a daily habit	What is cancer?	Learners are guided to Discuss causes and prevention of cancer In groups, learners are guided to Create awareness of common preventable cancer	KLB Visionary Home Science Learner's Book Grade 6 pg. 25-27 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
	3	Consumer education	Budgeting	By the end of the sub-strand, the learner should be able to:	What is budget?	In groups, learners are	KLB Visionary Home Science	Oral questions	

				1			T		
				 Define budget Prepare a shopping list Discuss importance of preparing a budget Appreciate proper panning to avoid running out of funds 		guided to Prepare a shopping list	Learner's Book Grade 6 pg. 28-30 Digital resources Charts Realia Play items Computing devices	Oral Report Observation	
6	1		Importance of budgeting	By the end of the sub-strand, the learner should be able to: • List factors to consider when making a budget • Make a simple budget for personal effects • Appreciate the need for budgeting	Why do we prepare a budget?	In pairs, learners are guided to List factors to consider when making a budget In groups, learners are guided to Make a simple budget for personal effects	KLB Visionary Home Science Learner's Book Grade 6 pg. 30-32 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
	2		Revision	By the end of the sub-strand, the learner should be able to: • Answer topical questions correctly		Learners are guided to Answer topical questions correctly	KLB Visionary Home Science Learner's Book Grade 6 pg. 32 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
	3	Food and nutrition	Food nutrients-	By the end of the sub-strand, the learner should be able to:	What is a mineral?	In groups, learners are	KLB Visionary Home Science	Oral questions	
1		แนน เนบแ	nuti iciits-	the learner should be able to.	minicial:	rearriers are	TIOITIC SCIETICE	questions	

		minerals (iodine and iron)	 Define nutrients Identify nutrients found in different food groups Identify foods rich in iodine and iron Discuss importance of iron and iodine in our bodies Appreciate importance of iron and iodine in our bodies 		guided to Identify foods rich in iodine and iron In groups, learners are guided to Discuss importance of iron and iodine in our bodies	Learner's Book Grade 6 pg. 33-34 Digital resources Charts Realia Play items Computing devices	Oral Report Observation	
7	1	Importance of different minerals in the body	By the end of the sub-strand, the learner should be able to: • Explain importance of different minerals in our bodies • Prepare foods rich in iron • Have fun classifying food according to their mineral content • Prepare a meal plan contain foods with different minerals	What mineral can one get from meat?	In pairs, learners are guided to explain importance of different minerals in our bodies In groups, learners are guided to Prepare foods rich in iron	KLB Visionary Home Science Learner's Book Grade 6 pg. 34-35 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
	2	Keeping a daily log of foods rich in minerals	By the end of the sub-strand, the learner should be able to: • Discuss importance eating foods rich in essential minerals • Prepare a daily log of foods rich in minerals • Appreciate eating foods	What are the essential minerals required by our bodies?	Learners are guided to Discuss importance eating foods rich in essential minerals	KLB Visionary Home Science Learner's Book Grade 6 pg. 36-37 Digital resources Charts Realia	Oral questions Oral Report Observation	

	3	Preservation and storage of meat	rich in essential minerals • Answer question on the sub topic By the end of the sub-strand, the learner should be able to: • identify sources of	Where do we get meat from?	In groups, learners are guided to Prepare a daily log of foods rich in minerals In groups, learners are guided to	Play items Computing devices KLB Visionary Home Science Learner's Book	Oral questions Oral Report	
		oi meat	 Identify sources of meat that we eat. Search in the internet to find different sources of meat Draw simple sources of meat Appreciate sources of meat by taking care of these animals to ensure safe meat and health of the animals 	irom?	identify sources of meat that we eat. In groups, learners are guided to demonstrate how to take care of common sources of meat at home	Grade 6 pg. 38-39 Digital resources Charts Realia Play items Computing devices	Observation	
8	1	Importance of preserving and storing meat	By the end of the sub-strand, the learner should be able to: • Explain reasons for preserving meat • List reasons for preserving meat • Name facilities used to preserve and store meat • Demonstrate how to preserve meat by	How do you preserve meat at home?	In pairs, learners are guided to Explain reasons for preserving meat In groups, learners are guided to Demonstrate	KLB Visionary Home Science Learner's Book Grade 6 pg. 39-41 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	

			smoking		how to preserve meat by smoking			
	2	Safety storage of meat	By the end of the sub-strand, the learner should be able to: • Discuss safety measures to observe when storing meat • List factors to consider when choosing a method of preserving meat • Appreciate proper preservation of meat • Watch a video showing different ways of preserving meat	What factors do you consider when choosing a method of preserving meat?	Learners are guided to list factors to consider when choosing a method of preserving meat In groups, learners are guided to watch a video showing different ways of preserving meat.	KLB Visionary Home Science Learner's Book Grade 6 pg. 41 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
	3	Ways of preserving meat at home-sun drying	By the end of the sub-strand, the learner should be able to: • Demonstrate how to preserve meat at home by drying • Discus advantages and disadvantages of preserving meat by sun drying • Appreciate preserving meat by sun drying	What are disadvantag es of preserving meat by sun drying?	In groups, learners are guided to Discus advantages and disadvantages of preserving meat by sun drying In groups, learners are guided to Demonstrate how to preserve meat at home by drying	KLB Visionary Home Science Learner's Book Grade 6 pg. 42 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
9	1	Ways of preserving	By the end of the sub-strand, the learner should be able to:	What are advantages	In pairs, learners are guided to	KLB Visionary Home Science	Oral questions	

	meat at home- refrigeration	 Demonstrate how to preserve meat at home by refrigeration Discus advantages and disadvantages of preserving and storing meat by refrigeration Appreciate preserving meat by refrigeration 	of preserving meat by refrigeration ?	Discus advantages and disadvantages of preserving and storing meat by refrigeration In groups, learners are guided to Demonstrate how to preserve meat at home by refrigeration	Learner's Book Grade 6 pg. 43 Digital resources Charts Realia Play items Computing devices	Oral Report Observation	
2	Ways of preserving meat at home- smoking	By the end of the sub-strand, the learner should be able to: • Demonstrate how to preserve meat at home by smoking • Discus advantages and disadvantages of preserving meat by smoking • Have fun by preserving meat by smoking	What are advantages of preserving meat by smoking?	Learners are guided to Discus advantages and disadvantages of preserving meat by smoking In groups, learners are guided to Demonstrate how to preserve meat at home by smoking	KLB Visionary Home Science Learner's Book Grade 6 pg. 44 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
3	Ways of preserving meat at home-salting	By the end of the sub-strand, the learner should be able to: • Demonstrate how to preserve meat at home by salting • Discus advantages and	Have you ever preserved meat by salting?	In groups, learners are guided to Discus advantages and disadvantages of preserving meat	KLB Visionary Home Science Learner's Book Grade 6 pg.44-45 Digital resources Charts	Oral questions Oral Report Observation	

			disadvantages of preserving meat by salting • Appreciate preserving meat by salting		In groups, learners are guided to Demonstrate how to preserve meat at home by salting	Realia Play items Computing devices		
10	1	Hygiene measure while preserving meat	By the end of the sub-strand, the learner should be able to: • Identify hygiene measures to observe when storing meat • Demonstrate/Showcas e safety hygiene measures when storing meat • Appreciate safety measures when storing meat	What are the safety measure to consider when storing meat?	In pairs, learners are guided to Identify hygiene measures to observe when storing meat In groups, learners are guided to Showcase safety hygiene measures when storing meat	KLB Visionary Home Science Learner's Book Grade 6 pg. 45-46 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation	
	2	How to store preserved meat at home	By the end of the sub-strand, the learner should be able to: • Name storage equipment's used to store food at home • Watch a video showing how to store food • Demonstrate how to	What is the use of a freezer?	Learners are guided to Name storage equipment's used to store food at home In groups, learners are	KLB Visionary Home Science Learner's Book Grade 6 pg. 46-47 Digital resources Charts Realia	Oral questions Oral Report Observation	

		store food in a freezer Have fun storing preserved meat Discuss importance of preserving meat	guided to Demonstrate how to store food in a freezer	Play items Computing devices		
3	Revision	By the end of the sub-strand, the learner should be able to: • Answer questions at the end of the sub-strand	In groups, learners are guided to answer all questions correctly	KLB Visionary Home Science Learner's Book Grade 6 pg.48 Digital resources Charts Realia Play items Computing devices	Oral questions Oral Report Observation
